Description

Our Pocket Door is ideal for any pocket door application. Doors can be mounted on almost any pocket door framing system, but perfectly integrate with the 1500 Heavy Duty Pocket Door Frame Kit by Johnson Hardware (recommended).

Frame

Clean & simple, yet sleek frame design. Our aluminum extrusion frames are ideal for use in both professional or residential applications. Systems are fully finished on both sides with virtually no visible screws or fasteners. Standard frame size is three inches wide. Overall thickness is one and three-eighths inches.

Interlayer

Wallcovering of customer's choice. Each wallcovering is sourced and installed in each door at the factory, so the final product is completely finished and ready to be installed once it arrives on the jobsite. Send wallcovering manufacturer and specification to us with your quote request.

Glass Cover

Optional. Additionally, each wallcovered interlayer can be covered with a clear, tempered sheet of glass integrated inside the door frame.

Frame Finish

Aluminum frames are offered in high-quality, durable anodized or powder coat finishes: Anodized Aluminum, Dark Espresso, Snow White and Knight Black. Custom powder coat colors are available.

Door Pull Hardware

Heavy-duty Door Pull Hardware available in Satin Nickel or Polished Brass finish. Door Pulls installed and shipped with doors.

Framing System

Door can be mounted on almost any pocket door framing system (sold separately). For ease of installation and availability, we recommend the 1500 Heavy Duty Pocket Door Frame Kit by Johnson Hardware. These kits are the highest quality frames on the market and can be found at most fine hardware or contractor supply stores.
